

VISHNUPRAKASH K

Location: Triplicane, Chennai - 600005 | Phone: 7550218180 | Email: vip007prakash@gmail.com | <https://www.linkedin.com/in/vishnu-prakash-k-565905354>

Profile

Data Analyst with experience in business intelligence, data analysis, MIS reporting, dashboard development, and process optimization across multiple industries. Skilled in SQL, Python, Microsoft Power BI, data modeling, data visualization, KPI tracking, and business performance analysis. Experienced in transforming raw data into actionable insights, building automated dashboards, analyzing operational, financial, and digital performance, and delivering measurable business improvements. Proven ability to lead teams, optimize processes, and support strategic decision-making through data-driven insights.

Technical Skills

Programming: Python, SQL.

Data Analysis: Data Visualization, Bi Analysis, Exploratory Data Analysis (EDA), Dashboard Development, Trend Analysis.

Tools: Microsoft Power BI, Share Point, Scikit-learn, MySQL, PySpark, Microsoft Excel, Pivot Table, Pandas, Google Colab, Jupyter.

Library: scikit-learn, tensorflow, numpy, Matplotlib, seaborn, plotly, beautifulsoup, requests & SQLAlchemy.

Machine Learning: Predictive Algorithm, Classification Algorithm & Regression Algorithm.

Soft Skills: Communication, Good Listener.

Work Experience

BUSINESS-DATA ANALYST | Sunshine Group of Companies | Duration: Mar 2026 – Current.

- Managed business data analysis and performance monitoring for 14 group companies across multiple industries.
- Led a team of 2 analysts, delivering MIS reports, KPI tracking, and data-driven business insights.
- Analyzed financial, operational, and digital performance data to support strategic decision-making.
- Identified and evaluated relevant government/private tenders aligned with business objectives.
- Developed an HR payroll dashboard by integrating attendance system data.
- Improved profitability of Breeze Residency by 20% through operational analysis and process optimization.
- Increased profit margins of Pan Oleo Energy Ltd by 15% through production analysis and process improvement recommendations.

POWER BI ANALYST (Contract) | Sutherland Global | Duration: Mar 2025 – Jun 2025

- Discovered key business trends and aligned project outcomes with stakeholder requirements, improving decision-making efficiency by 20%.
- Engineered and launched 5+ interactive Power BI dashboards for multiple clients, enhancing data visibility and reporting speed.
- Automated and maintained daily, weekly, and monthly report updates using scheduled Power BI data refreshes, reducing manual effort by 30%.
- Integrated SQL databases with Power BI, establishing automation to accelerate reporting cycles by 40% and minimize manual intervention for consistent daily updates.
- Optimized datasets using advanced SQL queries, transform, and remove inconsistent data, increasing report reliability by 25%.

PROJECTS

SCHLUMBERGER GLOBAL PERFORMANCE DASHBOARD-

- Architected comprehensive performance dashboards in Power BI by cleaning, analysing data, writing 134 different DAX queries, and mapping table relationships.
- Implemented interactive visuals and maps covering data insights from 94 countries.

ENERGIZER ONE STOP REPORT -

- Developed a Power BI One Stop Report dashboard for Energizer, focusing on performance, trends, and summary insights on 3 different categories.
- Collected, cleaned, and structured data to create interactive visuals that enhanced operational monitoring and efficiency by 20%.

SPOTIFY GLOBAL DASHBOARD-

- Built and deployed an interactive dashboard to visualize Spotify's global Adherence data, which includes 5 countries.
- Leveraged SQL for efficient data cleaning and transformation, and established scheduled data refresh processes to enable accurate and real-time business insights.

ELEGA WAVE - VIRTUAL TOUCH AI-

- A real-time gesture recognition system using deep neural networks for a virtual touch interface with a response time of less than 5 milliseconds.
- Designed the system for an average accuracy of 87.5% and responsiveness, ensuring optimal performance even in low-spec systems and augmented reality environments.

Education

B.E. Computer Science and Engineering (Aug 2020 -Aug 2024)
Jeppiaar Engineering College, Chennai, Tamil Nadu (CGPA: 7.98)

CERTIFICATIONS

- Data Science with GenAI – issued by Greens Technologies
- Data Analysis – issued by Coursera (Google)
- Intern ship certificate – issued by Infinity Cosmos Technology (Web Development)
- Intern ship certificate – issued by Atos (Web Development & Analysis)
- Intern ship certificate – issued by Sutherland Global (Power BI Developer/ Data Analyst)

ADDITIONAL INFORMATION

- Strong interest in working with startups and mission-driven organizations.
- Passionate about applying analytical thinking to business and operational challenges.
- Quick learner, adaptable to dynamic and fast-paced environments.
